

Int'l Appl. No. : PCT/JP03/15266
Int'l filing date : November 28, 2003

REMARKS

The claims have been amended to conform with the rules of practice before the U.S. Patent and Trademark Office. Method claims 7-11 have been added which find support throughout the specification, see particularly the paragraph beginning at page 9, line 14 and Examples 2-4 on pages 15-19 of the present specification.

The specification has been amended to recite the International Application and priority application. A typographical error has been corrected in Table 4 on page 19. The word "CLAIMS" has been deleted and substituted by "WHAT IS CLAIMED IS" so that subsequently appearing claims will be the object of a sentence as specified by M.P.E.P. section 608.01(m). As a result of this preliminary amendment, Claims 6-11 have been added and Claims 2, 4, and 5 have been amended. Accordingly, Claims 1-11 are presented for examination. No new matter is being added herewith.
